

Kevin Siraki

Los Angeles, CA | www.kevinsiraki.com

Professional Summary

Senior Application Developer specializing in .NET, Blazor, enterprise workflow automation, and cloud-integrated internal platforms. Experienced delivering secure, scalable solutions across large government organizations supporting operational modernization, process automation, and public-facing systems.

Experience

Senior Application Developer | LA County Board of Supervisors | 3/2025 - Present

- Led modernization of the Assessment Appeals Board's eForms ecosystem using Blazor and enterprise service integrations, reducing hearing processing time by 60% through workflow automation and system consolidation.
- Designed and developed a secure Board Correspondence platform leveraging Box CCG, Entra ID SSO, and custom MSSQL role-based authorization to support interdepartmental document governance and access control.
- Architected and delivered enterprise Power Platform solutions integrated with our enterprise ITSM workflows, automating request intake and approval routing across 30+ Board of Supervisors divisions.
- Engineered a .NET SendGrid notification microservice to automate cross-county transactional communications.

Application Developer II | LA County Board of Supervisors | 6/2024 – 3/2025

- Modernized Board Meeting software supporting weekly public meetings serving Los Angeles County's 10M+ residents by engineering modern .NET/SQL based solutions to reduce legacy code dependencies by 50%.
- Managed CI/CD pipelines and version control workflows for Vue.js applications integrated with Kontent.ai CMS.
- Spearheaded migration of legacy webhook infrastructure ahead of vendor deprecation timelines, coordinating testing and rollout efforts to ensure uninterrupted integrations and zero critical service disruptions during transition.
- Led development of a Blazor and MSSQL self-service platform enabling internal teams to manage operational data updates independently, reducing developer support workload by approximately 15%.
- Prototyped AI-driven workflow automation tools for executive operations using the OpenAI Assistants API.

IT Analyst I | LA County Board of Supervisors | 4/2024 – 6/2024

- Resolved enterprise technical issues in collaboration with App Development, Cloud, and Infrastructure teams.
- Managed endpoint compliance and device deployments using Active Directory and Microsoft Intune.
- Automated device imaging and provisioning with batch scripting to improve deployment efficiency.

Multimedia Technology Lead | Glendale Unified School District | 9/2022 – 4/2024

- Built a cloud-based media distribution solution using Google Cloud Storage by digitizing educational DVD content, reducing annual licensing costs by \$1K+ while improving accessibility across district classrooms.

Full Stack Developer | Don't Trip | 5/2020 – 2/2023

- Built and maintained a production full-stack travel platform using PHP, JavaScript, MySQL, and Google Maps APIs, serving 1,500+ users with personalized route recommendation features.
- Engineered secure authentication and API protection mechanisms including JWT authentication, 2FA, CSRF/XSS mitigation, rate limiting, and SQL injection prevention.
- Managed containerization, deployment, and infrastructure using Docker, Git, Ansible, Swagger/OpenAPI, and Linux-based LEMP environments.

Education

Computer Science B.S. | CSU Northridge | 3.95 GPA - Magna Cum Laude

- Northrop Grumman Foundation CECS Scholarship Recipient (2x)
- Teaching Assistant/Tutor for Data Structures & Algorithms
- Built a Java-C compiler implementing lexing, parsing, typechecking, bounds checking, and OOP subtyping

Skills

- **Languages:** C#, JavaScript/TypeScript, Python, PHP, Java, C/C++
- **Frameworks:** .NET, ASP.NET MVC/Razor, Blazor, Vue, React, Laravel, Node.js, Express
- **Cloud & DevOps:** Azure, AWS, Google Cloud, Docker, Kubernetes, Linux, CI/CD, Git, Ansible
- **Databases:** MSSQL, MySQL, Postgres, MongoDB, Redis
- **Enterprise Technologies:** PowerApps, PowerAutomate, SharePoint, Dynamics CRM, Active Directory, Kontent.ai
- **Additional:** REST APIs, Agile/Scrum, Azure DevOps, Jira
